

# ITC Open Meeting 2018

Organization of an open technology meeting at the WOC 2018 in Sigulda, Latvia

## Invitation text for participants

The IOF IT Commission invites you to attend the Technology in Orienteering - Open Meeting at the **6th August 2018** during WOC 2018 in Latvia.

The aim of the meeting is to gather technology savvy orienteers to present and discuss relevant technology - timekeeping, GPS, analysis, services, hardware, software etc. The format will be several short presentations (“lightening talks”) with room for Q&A and networking.

## Invitation text for potential speakers

The IOF IT Commission invites you to speak at the Technology in Orienteering - Open Meeting at Monday 6th August during WOC 2018 in Latvia. We are very pleased to welcome you as a speaker.

The aim of the meeting is to gather technology savvy orienteers for presentations and discussions about relevant technology - timekeeping, GPS, analysis, services, hardware, software etc. We do not want “sales presentations”, but a presentation about how products are useful and how they work for a technical audience and how this will influence orienteering sports.

The meeting will be held on the 6th August between 18:00 - 20:00. The entire meeting is scheduled to last 2 hours, each presentation is limited to 10-15 minutes (“lightening talk”) with 5 minutes for Q&A.

We would appreciate to have you at this meeting presenting the newest technical development. If you are able to come to Sigulda, please come back with your suggestion for a presentation to us ([iof.itc@orienteering.org](mailto:iof.itc@orienteering.org) or the IOF Office) until **15th June 2018**.

With kind regards

ITC
