## LIVE Orienteering

### Disclaimer

IOF, the production team and the local organisers are doing our best in making available World Cup competitions, at a good quality, to all orienteering followers around the globe at a reasonable cost. The setup of globally distributed live streams from the production bus to the follower’s phone, tablet or computer is a complex project where there are several possible issues that can appear. We will do our best to provide good quality, fun and exciting competitions at your home!

## Status, Feedback and questions:

If you encounter any problem or have any feedback, please report it to [live@orienteering.org](mailto:live@orienteering.org). We will read all feedback. If you want to find the status of the streams, please check the top of the Event page in LIVE Orienteering. Due to the big variation in type of device that our followers use, we strongly recommend checking the supported devices section in the Live Orienteering FAQ page: <https://liveorienteering.com/#/faq> and try another device if it is not working on one.

## LIVE Orienteering – All Live Services

There will be live Web TV (Pursuit and Relay); live GPS-tracking and live results. The three live-services have different start times, please check the 'LIVE Services on LIVE Orienteering' table at the end of the document.

## LIVE Orienteering Tickets - Crowdfunding

We have decided to try a new concept for the financing of TV productions and LIVE Orienteering. LIVE Orienteering will be open for all to view, but we are asking viewers to pay a voluntary payment towards the cost of production and transmission. We recommend a payment of **10 EUR** for this World Cup round, or 5 EUR per race. You are welcome to pay more or less. But we hope that viewers will understand the value of contributing towards the cost of the productions, and the work that is put into this by the organisers and the IOF.
